

PLEASE NOTE: The attainment of all BTCA Qualifications from level one to Level 3 are subject to an official assessment. As long as students demonstrate the ability to effectively coach the elements that are required within the courses 'pass criteria' then they will achieve a qualification pass. This means that BTCA courses can be delivered at any facility and by any coach that has a level 4 qualification or above. It is therefore advised that any coach delivering a BTCA course ensures that they are completely familiar with the BTCA Course Materials and also the required pass criteria for each qualification level.

All coaches that have completed courses are required to obtain DBS Clearance before commencing any independent coaching as this is a requirement of the BTCA Coach Insurance Policy, and we also advise that coaches obtain official First Aid Certification in due course.
